

# NEW BERN

CITY OF NEW BERN

[www.newbernc.gov](http://www.newbernc.gov)

**TRASH PICKUP:** Trash pickup for City residents is running on schedule. Craven County trash stickers are required on trash bags sitting outside cart (one sticker per bag no larger than 33 gallons weighing no more than 50 pounds). Be aware that construction debris, carpets, clothing, etc. cleaned out from flooded homes should not go in your trash receptacle.

Questions concerning trash pickup outside of the city limits of New Bern should be directed to your service provider.

**RECYCLING:** Recycling service is suspended until further notice by Craven County ([www.cravencountync.gov](http://www.cravencountync.gov)). We understand that service could resume on or around October 1, 2018. In the meantime, residents may take recycling to a Craven County Convenience Center.

**DEBRIS COLLECTION:** City staff and contractors have started picking up storm debris. Please put debris curbside but NOT in the street. Debris should be properly sorted into three piles: leaf/limb/vegetation in one pile. Construction debris (carpet, sheetrock, wood, furniture, etc.) in one pile, and white goods (appliances & electronics) in a third pile. Reminder: please place at the back of the curb, NOT in the street so as not to impede stormwater drainage and vehicle access. City staff and contractors will be working 12 hour shifts from 7 am-7 pm to collect debris. City residents may also take leaf/limb/vegetation debris to the city's yard waste facility located at 1803 Country Club Road. This facility will operate Monday-Saturday from 8 am-4 pm until further notice. Or, you can take it to a Craven County Convenience Center.

Questions concerning debris removal for residents outside of New Bern city limits should be directed to Craven County (252)636-6659 or [www.cravencountync.gov](http://www.cravencountync.gov)
