Good Morning Mr. Campbell,

Hope your well. I'm in the process of opening registration for the Youth Fishing Derby on April 18th. Once the Flyer is finalized I'll email it to you.

In addition, we are in the process of completing our first phase of development at Martin Marietta Park. As you may know there are man made ponds at this new park. My director is interested in having the ponds tested for the different types of fish species present and also receiving information on setting creel limits. Can you assist with this or forward me to someone who could?

I look forward to hearing from you soon!

Kind Regards,

Kari A. Warren, CPRP, LRT/CTRS

Kari,

I would be happy to assist with this. Please give me a call at your convenience. We already have creel size limits for public waters so that is already in place for you.

Ben,
Can you talk to Kari? If not, let me know who I can pass this on to.
I am at the Park often, and I see a lot of fishing going on.
Thanks!
